POOLTESTER / TESTBLOCKS

FEATURES

Water-i.d.[®] Pooltesters / Testblocks match the classic way of how to reliably test your pool and spa water.

All our Pooltesters / Testblocks have a white background. By that, reading the result is easy and won't be disturbed by background colors.

Chambers behind the color charts can be filled with water as well, to automatically adjust the scale colors, in case the water to be tested is pre-colored.

Water-i.d.[®] Pooltesters / Testblocks work with German made, rapid dissolving Water-i.d.[®] reagents.

More than 1.6 million users trust the Water-i.d.[®] Pooltesters / Testblocks already. How about you?

REAGENTS

All Pooltester and Mini-Tester reagents are entirely developed and produced in Germany and blistered in push-through aluminium-blisters providing long shelf life of 5 to 10 years as well as easy handling.

Water-i.d.[®] was the first reagent tablets manufacturer introducing the tablet push-through-blister and got awarded for it some years ago.

All reagent tablets are available in pack sizes of 50 / 100 / 250 / 500 tablets as well as mixed packs, matching the original quantity of tablets per tester as shown in the table under „content“.
